

Boycott, Divestment, and Sanctions in the British land trades sector

The following is a compendium of companies prominent in the British land trades sector (horticulture, agriculture, forestry, gardening etc) that are owned by Israeli companies, subsidiaries of Israeli companies, or linked in other ways to the genocidal settler-colonial state known as Israel.

The list was composed by members of Solidarity Across Land Trades (SALT), a branch of the Bakers Food & Allied Workers' Union. It is intended to aid workers fighting for targeted BDS within this industry.

Please email salt_union@proton.me if you have further additions. Where companies have later divested or cut ties from Israeli finance as a consequence of this campaign it has been indicated.

Freedom for Palestine!
